Interested in costume design,
acting, directing, or scenic
and lighting design?

Our popular **FREE** workshop series is back! On three Monday evenings in September, come together with other teens and professional artists to dive into ***Zoot Suit* by Luis Valdez**. Actors and directors will investigate scenes from the play, and costume, lighting, and scenic designers will get hands-on experience to develop design concepts. On the last day, we'll throw it all together, invite our friends, pitch our ideas, and see what we've got! This is the fastest way to learn what it takes to put on a professional show from start to finish.

No experience necessary to participate.
